## 1. INTRODUCTION

### 1.1 Overview

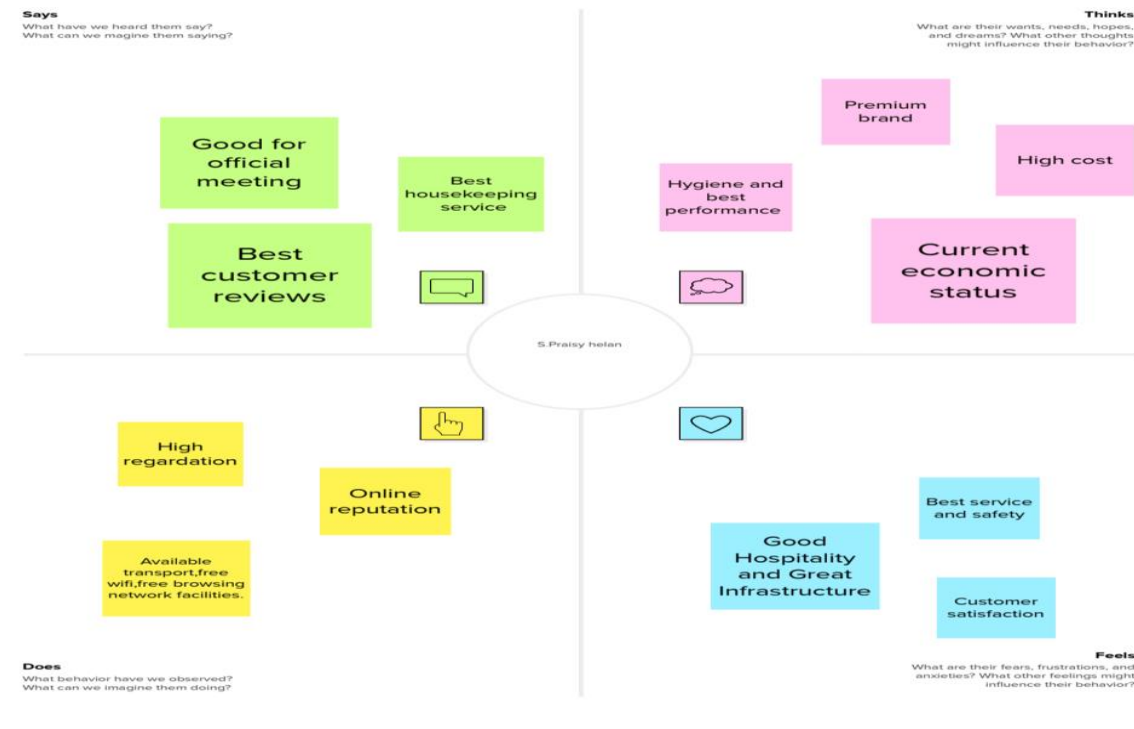

A Hotel is a place where traveller can receive food and shelter, provided he/she is in a position to pay for it and is in fit condition to be received. Radisson Hotel Group is a name synonymous with creative hospitality and innovative spirit. Our growth strategies and unique business model make us one of the most attractive and respected partners in the industry. Radisson Hotels is an International hotel chain headquartered in the United States. A division of the Radisson Hotel Group, it operates the brands Radisson Blu, Radisson RED, Radisson Collection, Country Inn & Suites, and Park Inn by Radisson, among others. Radisson Hotel Group ranks No. 143 on World's Best Employers. The survey data was gathered before the split into Radisson Hotel Group and Radisson Hotel Group Americas was finalized.

### 1.2 Purpose

Our long-term vision is to be the company of choice for guests, owners and talent. Whenever a guest plans a trip, or an investor or owner is thinking of a partner, or whenever someone is looking for a career in the hospitality industry, they will all think of Radisson Hotel Group first.

## Welcome to Radisson Hotel

Radisson Hotels is an international hotel chain headquartered in the United States. A division of the Radisson Hotel Group, it operates the brand Radisson Blu, Radisson RED, Radisson Collection, Country Inn Suites, and Park Inn by Radisson, among others.

### Radisson Hotel Analysis

Radisson owns multiple five-star hotels across India. They have been in the hospitality industry for the past 100 years. Due to strategic moves from other competitors and ineffective decision-making management, Radisson are losing its market share and revenue in the luxury/business hotels category. As a strategic move, the managing director of Radisson wanted to incorporate Business and Data Intelligence in order to regain their market share and revenue.

## 6. CONCLUSION

The first step of our process is define problem statement and making solutions for our problems. Using these solution we made a ideation template. With these ideas we made a Empathy map and Brainstorming and ideation template, which is our first milestone Define problems or problem understanding. Secondly, according to our project we collect data sets from sources, and we made that data in SQL to make use of it. After that Tableau Software is installed and we connected to Tableau desktop to SQL Workbench successfully, which is our second milestone Data collection and extraction of database. Thirdly, we prepare the data for visualization, which is our third milestone data preparation. The next step is Number of unique visualizations we made a bar charts, line charts, map etc., We made visualization for our topics like, Revenue split by city, Occupancy split by city, Occupancy by day type, Revenue by room class, Booking % by platforms, Property by key metrics, Revenue contribution % by category, Successful booking by city, Successful booking by date wise, Total revenue for the hotel, Total successful bookings, Occupancy in %, which is pour fourth milestone data visualization. The next process is responsive and design of dashboard, a dashboard is a graphical user interface (GUI) that display information and data in an organized, easy-to-read format, which is our fifth milestone dashboard. Further process is number of scenes story is a way of presenting data and analysis in a narrative format, intending to make the information more engaging and easier to understand, which is our sixth

milestone story. Then amount of data rendered to DB, utilization of data files, number of calculation field, number of visualization or graphs, then save to tableau public, which is our

seventh milestone performance testing. The next process is embedded dashboard and story with web bootstrap, we made a template of our project using templates and we included our dashboard and story with the template, which is our eight milestone web integration. Project demonstration and documentation is our ninth milestone. We have nine milestone in our project handbook and we completed our project 'ANALYZING THE PERFORMANCE AND EFFICIENCY OF RADISSON HOTELS USING DATA VISUALIZATION TECHNIQUES '.
